The Guatemala Literacy Project (GLP) is a network of Rotarians and CoEd working together to improve literacy in Guatemala.

Display Board Kit

Set-Up Instructions

In this PDF you will find the following:

- Set-up instructions (page 1)
- Photo of display board set-up (page 2)
- Images to be used on the display board (pages 3–17)

Materials needed to make the display board:

- Tri-fold display board, at least 36 in x48 in (black suggested, available at Staples for ~US$15)
- Tape or glue stick
- Scissors or paper-cutter
- White paper (please use 11”x14” piece of paper for the GLP “title” logo if possible, as it is currently sized to fit those dimensions in this document)
- Printer

Instructions

1. Obtain materials listed above.
2. Print color copies of the images included in this PDF (pages 3–17).
3. Cut out the images from the printed PDF document.
4. Arrange the images on the display board, referring to the enclosed photo (page 2) of where to place the images.
5. Using tape or a glue stick, secure the images onto the display board.
6. Feel free to replace any of the photos with your own!

Additional table materials provided by the GLP (upon request, allow time for postage):

- GLP Project Brochures or GLP Info Sheet (printable)
- Project Tour Brochures

Thank you for spreading the word about the Guatemala Literacy Project! Good luck!

TEXTBOOK PROJECT

This **sustainable** project brings vital textbooks to secondary schools in Guatemala, dramatically improving comprehension and reducing student drop out rates.

COMPUTER CENTER PROJECT

In the computer centers, students have the opportunity to learn the technical skills needed to get better jobs and further education after graduation. The centers are **sustainable** through the use of a **revolving fund**.

CULTURE OF READING PROGRAM (CORP)

CORP provides teachers with the methods and skills they need to foster improved literacy and a life-long love of reading in their students.

GUATEMALA literacy project

A partnership between North American & Guatemalan Rotary Clubs and the non-profit organization Cooperative for Education

GLP: **404** Rotary Clubs, **63** Districts

Providing textbooks, computer labs, and literacy programs to underprivileged children in Guatemala.

PROJECT TOTALS

132,700 Students served

54 Computer Centers

185 Textbook Projects

33 Schools with CORP Teachers

www.guatemalaliteracy.com

SUSTAINABLE PROJECTS

All of the projects in the GLP are **financially self-sufficient** through the use of a **revolving fund**. Each person makes a small financial contribution to their school's project, giving them a vested interest in its success.
